Are you a female aged 18 years or older and a resident of Haarlem?

Would you like to know where to find a playgroup, or at what primary school to enroll your child? Does your child require care, or do you have questions about parenting or about your teenager?

Do your parents require support, or would you like to receive assistance in finding a job?

If you have any questions about parenting, training and education, work, civic integration or any other issues, please contact the community outreach workers* (wijkcontactvrouwen).

Consultations are available in several Haarlem neighbourhoods. Alternatively, you can also contact the community outreach workers by telephone – please refer to the insert for a list of phone numbers.

The community outreach workers have close ties to various Haarlem-based organisations and can provide you with information on, or refer you to, the following issues and organisations:

- * Activities at mother centres (moedercentra) and other organisations
- * Language courses, civic integration courses and vocational training
- * Work and UWV WERKbedrijf (the work placement branch of the Employee Insurance Agency)
- * Healthcare services
- * Assistance, counselling and social work
- * Youth and Family Centre (Centrum voor jeugd en gezin)

The community outreach workers can make house calls upon request.

They are also trained to conduct brief discussions on parenting (based on the Triple P Positive Parenting Program).

Anything you discuss with us will remain strictly confidential.

* We work exclusively with female community outreach workers.

The outreach women project is made up from several distinct organisations. These organisations work together. If you would like to have general information about the project you can contact us by mail:
